APPLICATION FORM

(ALUMNI) FELLOWS

BULLETIN

LINKS

Annually, the Canon Foundation in Europe grants up to 15 Fellowships to highly qualified European and Japanese researchers. European nationals should have permanent citizenship in the country.

The candidates hold a doctorate or at least a Master's degree. They are eligible during the ten-year period following the successful completion of their PhD or MA degree. Extensions to the ten-year rule are possible in principle in case of exceptional circumstances which should be explained in the application and supporting documents are required. The European Fellowship holders pursue a period of research in Japan whereas the Japanese Fellows do their research at host institutions in Europe. The Fellowships are awarded for periods of minimum three months and maximum one year. The Fellowships are awarded regardless of discipline and existing employment positions.

Canon Fellows from Europe are free to choose their host institutes and hosts in Japan. The same freedom is given to Japanese Canon Fellows coming to Europe. Canon Foundation Research Fellowships may be applied for when an agreement on co-operation and on a research plan has been reached between the guest researcher and the proposed host institution.

Applications can also be submitted by members of commercial, industrial, governmental or professional organisations.

It is strongly recommended that the candidates obtain the current issue of the application form from this website (<u>download it here</u>) or at the Secretariat of the Foundation, in Amstelveen - the Netherlands.

Application procedure for Fellowships

The annual deadline for applications is September 15. Consideration of the applications takes several months. The Selection Committee's final decisions are convened to the applicants before end December of that year. Therefore, the earliest possible date to begin the Fellowship is January 1 of the following year.

Applications should be submitted in full (including the acceptance by the proposed host institute and the research plan) to the Secretariat of the Canon Foundation in Europe well in advance of the deadline.

It is important to note that no correspondence is entered into by the Foundation in regard to decisions taken on any individual application and in view of the large number of applicants, no negative inference should be drawn from the failure of a candidate to secure a Fellowship.

The financial support for Research Fellows ranges from 22,500 Euro to 27,500 Euro per year and pro-rata for different periods. The Canon Foundation gives priority to those who plan to travel to Europe or Japan rather than prolong a current stay.

Short survey on the Canon Fellowships from 1990-2013

1 de 3

These statistics are not the result of any particular policy pursued by the Canon Foundation in Europe, since selection is not subject to any limitations in respect of the specific disciplines. It is solely based on academic qualification and restriction to European and Japanese postgraduates and scholars.

Countries of origin of European Canon Research Fellows
 In the years 1990 - 2013, a total of 297 Canon Research Fellowships
 have been granted. 179 European Fellows have been sponsored and 118
 Japanese Fellows. In percentages: from Europe 60%, from Japan 40%.

The European Fellows came from 23 different countries. Geographical spread by country of origin of European Canon Research Fellows:
